90031 - Aluminum Weathertight Door with Aluminum Weld-in Frame

This aluminum weathertight door has an aluminum weld-in style 4" deep frame. The framed window is available in thicknesses of 6-19mm with various tinting options.

Two or more reinforced nylon lock down dogs secure the door for weathertightness. Latch lock and adjustable hinge hardware are stainless steel.

Pictured door has a mill finish with radius corners. Other finishes and mitered corners are available.

The window shown has a half drop vertical sliding window with clear tempered glass.
