90045 - Aluminum Weathertight Door with Aluminum Bolt-on/Clamp-on Frame

This aluminum weathertight door has an aluminum bolt-on or clamp-on style frame. A framed window is available in thicknesses of 6-19mm with various tinting options.

Two or more nylon lock down dogs (if required) secure the door for weathertightness. Latch lock and adjustable hinge hardware are stainless steel.

Pictured doors from left to right:

Left: This double weathertight door has a white powdercoated finish with radius corners. Other finishes and mitred corners are available. The frameless window has clear tempered glass.

Middle: Pictured door has a mill finish with radius corners.

Right: Pictured door has a white powdercoated finish with mitred corners and a wheelchair accessible threshold. The frameless window has clear tempered glass.
