

BECLAWAT

FRITTED/BONDED-IN GLASS

Beclawat Manufacturing Inc. has designed and manufactured durable window and door systems for the ever changing needs of industry since 1934. Beclawat's innovative products and reliable customer service provide effective solutions to customers worldwide.

Frameless Installation

Fritted (bonded or frameless) glass commonly refers to glass installed in frameless applications and bonded directly to the ship's structure. A ceramic frit (border) is baked on and provides UV protection for the underlying adhesive. Beclawat provides a Sika approved ceramic frit.

Beclawat Manufacturing Inc., a Prelco Group company, has the experience, capability and knowledge to support the most challenging projects.

Fritted glass options:

- Tempered
- Laminated
- Insulated
- Ballistic
- Tinted
- Heated
- Curved

For more information on installation techniques visit www.sikaindustry.com for glazing instructions.
